Experience

UX/UI Designer, Elixir Labs

May 2017 - Present

- Conduct card sorting and user interviews to determine site navigation and create a site map
- Deliver wire frames and user interfaces to developers quickly and efficiently using the agile design process
- Design user interfaces and user interactions to complement user experience using Sketch

Business Finance Co-op, Ontario Ministry of Agriculture, Food, and Rural Affairs

August 2016 - December 2016

- Independently processed invoices, purchase orders, and expense claims developing an eye for detail
- Created flow charts using Microsoft Visio for iPost desktop procedure
- Designed usage manual for iPost by conceptualizing and visualizing the most intuitive way for readers to be guided through the platform

Coop Peer Leader, University of Waterloo

August 2016 - December 2016

- Collaborated with six other team members to successfully guide students through the coop process, developing time management and communication skills
- Planned and organized seven events to help students with their resumes, cover letters, and interview skills
- Created posters using Photoshop and Illustrator to advertise Living Learning events

Peer Youth Animator, Family Services Toronto (FST)

July 2015 - December 2015

- Worked closely with the Project Coordinator and two other peer youth animators to contribute to the exploration and discussion of poverty using multimedia tools (i.e. photography, sketching, videography, etc.)
- Provided support and direction to volunteers involved in this project which I helped to initiate after volunteering with FST for around a year
- Provided a safe and open space for all volunteers to share thoughts, ideas and concerns

Co-Animator, ButtonUP

September 2013 - March 2014

ButtonUP was a business venture created to design custom-designed buttons for various clubs at Havergeral College.

- Took initiative to create and sell more than 250 buttons to achieve revenue of over \$500
- Designed and produced over 20 button designs, developing visual design skills
- Developed a keen eye for detail and organizational skills
